

## Recommended System Requirements for Xacta® Continuum

The following specifications are what Telos® recommends for optimal performance of the application. Additionally, Telos® recommends multi-CPU servers and additional RAM.

### Client Specifications

<b>MS Office</b>	MS Office 2007 or greater <sup>1</sup>
<b>PDF</b>	Adobe Acrobat Reader 8.0 or higher <sup>1</sup>
<b>Browser</b>	Internet Explorer 11, Firefox (current version) and Google Chrome (current version) (TLS 1.0 and JavaScript enabled)

### Xacta® Continuum

#### Basic Deployment (Up to 2,000 assets)

Components	Application Server	Database Server
<b>Xacta Continuum</b>	Quad core processors (2.5 GHZ processors) or faster	Quad core processors (2.5 GHZ processors) or faster
	8GB RAM (4 GB allocated to JVM)	8GB RAM
	200GB Hard Drive	300 GB Hard Drive
	MS Windows Server 2008 x64 Edition / 2012 x64 Standard / 2016 x64 Standard / Windows 10	MS Windows Server 2008/2012 or Unix
		MS SQL Server 2008/2012/2014/2016 or PostgreSQL 9.5.2

**Enterprise Deployment (2,000 – 10,000 assets)**

Components	Application Server	Database Server
<b>Xacta Continuum</b>	Quad core x64 processors (2.5 GHZ Processors) or faster	Quad core x64 processors (2.5 GHZ Processors) or faster
	20 GB RAM (14 GB allocated to JVM)	32 GB RAM
	300 GB Hard Drive	Two 500 GB Hard Drives totaling 1TB
	MS Windows 2008 x64 Edition / 2012 x64 Standard / 2016 x64 Standard / Windows 10	MS Windows Server 2008/2012 or Unix
		MS SQL Server 2008/2012/2014/2016 or PostgreSQL 9.5.x

## Enterprise Deployment – Very Large Implementations (VLDB) (Greater than 10,000 assets)

Components	Application Server	Database Server
<b>Xacta Continuum</b>	Quad core x64 processors (2.5 GHZ Processors) or faster	Quad core 16 CPUs x64 processors (2.5 GHZ Processors) or faster
	32 GB RAM (14 GB allocated to JVM)	128 GB RAM
	500 GB Hard Drive	5 TB Hard Drive
	MS Windows 2008 x64 Edition / 2012 x64 Standard / 2016 x64 Standard / Windows 10	MS Windows Server 2008/2012 or Unix
		MS SQL Server 2008/2012/2014/2016 or PostgreSQL 9.5.x
<p><i>* It is recommended that high-volume customers work with Telos representatives to determine the hardware specifications which will best support their usage.</i></p>		

### Xacta® HostInfo™

This is a family of host-specific software used for security-relevant configuration information collection and assessment. HostInfo™ can be run as a one-time executable or installed as an agent to support Continuous Assessment.

<b>Platforms Supported</b> <i>(Build 2410 and later)</i>	Cent OS
---	---------

### Notes:

<sup>1</sup>MS Office (Word and Excel) and Adobe Acrobat Reader are required on client systems for viewing of published documents.
