INFORMATION FOR ORDERING ACTIVITIES
SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage![®] on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage![®] and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

When TIMS removes equipment to his establishment for repairs, TIMS shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

5. SCOPE

- a. TIMS shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term. Such maintenance will cover damage and repairs from normal use only. Damage from fire, liquids, droppage, or other external causes are not covered by the scope of this contract. Such repairs may be obtained outside the scope of this contract. Thirty (30) days advance written notice is required to delete equipment from contract.
- b. Equipment placed under maintenance service shall be in good operating condition.
 - (1) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by TIMS without charge to the ordering activity.
 - (2) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by TIMS, if the equipment was under TIMS' guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.
 - (3) If the equipment was not under TIMS' responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of Special Item Number 132- 12 (or outside the scope of this contract).
- c. TIMS is offering on-call maintenance services after warranty and installation services.
- d. There shall be no additional charges for replacement parts except when defective parts cannot be removed from the installation and returned to TIMS for reasons of security.

6. RESPONSIBILITIES OF THE ORDERING ACTIVITY

- a. Ordering activity personnel shall not perform maintenance or attempt repairs to equipment while such equipment is under the purview of a maintenance order, unless agreed to by TIMS.
- b. Subject to security regulations, the ordering activity shall permit access to the equipment which is to be maintained or repaired. If access cannot be provided due to security requirements, TIMS shall have a reasonable period of time to provide personnel who can be granted access. TIMS shall attempt to qualify its maintenance personnel for security requirements in the vicinity of TIMS service locations. However, if unable to do so after a reasonable effort, TIMS shall charge the appropriate travel charges applicable to the distance from its nearest office having personnel qualifying for the security requirements.
- c. Environment. The ordering activity shall provide adequate working space, including telephone, heat, light, ventilation, electric current and outlets for use by TIMS maintenance personnel. These facilities shall be within a reasonable distance of the equipment to be serviced and shall be provided at no charge to TIMS.
- d. Operation Procedures. The ordering activity will follow routine operator procedures as specified in TIMS supplied Operating Manuals applicable to each product.
- e. Personnel Monitoring. At the request of TIMS, the ordering activity will provide a representative at the site during service by Telos personnel.

7. RESPONSIBILITIES OF TELOS IDENTITY MANAGEMENT SOLUTIONS (TIMS)

For equipment not covered by a maintenance contract or warranty, TIMS' repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 8 hours after notification.

8. MAINTENANCE RATE PROVISIONS

a. TIMS shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.

b. **REGULAR HOURS**

The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location. TIMS shall provide a service response time 8-PPM hours, (next day) to a request for on-call maintenance services.

Should the ordering activity require that maintenance be performed outside of Regular Hours, TIMS will provide extended PPM hours for the following additional charge:

- 16x5, M-F, excluding holidays – Monthly rate plus 10%
- 24x5, M-F, excluding holidays – Monthly rate plus 17%
- 24x7, M-F, including holidays – Monthly rate plus 25%

Our maintenance plan is summarized below:

1) **On – Call Maintenance Service**

On – Call Maintenance Service provides responsive on-site support to restore equipment to good condition which has failed through normal use. In providing this support, TIMS shall bear all costs of maintenance including labor, parts, travel, and such other expenses as are necessary to return the equipment to good operating condition. The monthly on-call maintenance rates listed herein are applicable to all ordering activity locations within a 100-mile radius of the TIMS service locations listed in Appendix C. A zone charge will apply for all locations beyond 100 miles. Zone charges are provided in paragraph 7d.

2) **Installation**

TIMS offers to provide Field Service support to meet ordering activity de-installation/re-installation requirements for equipment covered by this contract. Installation charges apply to sites within a 100-mile radius of a current TIMS Service Location. Customer sites located beyond 100 miles are subject to an additional \$105 trip charge. The ordering activity shall be responsible for obtaining all required permits, licenses, and other authorizations that may be required. Site preparation including ductwork is the responsibility of the ordering activity. Prices are for labor and travel only and are chargeable portal to portal as indicated below.

\$105/hour (PPM)
\$140/hour (OPPM)

The minimum charge under this provision is two hours at the applicable rate.

c. **AFTER HOURS**

TIMS will provide maintenance service outside the normal PPM (OPPM) for \$140 per hour, with a two-hour minimum for equipment under on-call maintenance service. Any parts replaced will be at no additional charge, unless otherwise stated in this schedule.

d. **TRAVEL AND TRANSPORTATION**

If any charge is to apply, over and above the regular maintenance rates, because of the distance between the ordering activity location and TIMS' service area, the charge will be:

Miles	Uplift	Minimum Monthly Uplift
101-200	20%	\$25.00
Over 200 Miles	15%	\$50.00

The additional charges above are applied to the total monthly charge to include any extended hour coverage uplifts.

Installation charges apply to sites within 100 miles of a current TIMS Service Location. Customer sites located beyond 100 miles are subject to an additional \$105 trip charge. The trip charge is limited to one trip per service call.

e. **QUANTITY DISCOUNTS** None offered.
