

Telos ID DAC

*TSA Designated Aviation Channeler (DAC)
for airports, air carriers, and vendors.
The new choice in TSA channeling.*

- Outstanding customer support
- Saves time and reduces risk, with a simplified Web-based portal
- Low cost solution – best value with the flexibility to meet customer requirements
- Offers new billing options with no reserve account required. We'll invoice you and provide full transaction history information
- Adds value by automating current manual processes and interoperating with current personnel, biometric collection, access control, and badging systems
- Confidence and security from Telos® ID – the premier choice in FBI Channeling, DoD and federal identity solutions

Airports, air carriers, and aviation support vendors now have a competitive alternative to existing TSA clearinghouse services. Telos ID offers lower fees and improved customer service through a secure Web-based solution that lets regulated parties more efficiently run their background check and badging operations.

Telos ID offers a modular, Web-based system that lets airports and air carriers select which services they need. Your secure Web portal is tailored to your needs and allows you to perform multiple functions on one platform.

Telos ID's Designated Aviation Channeler (DAC) platform successfully channels fingerprints and enrollment information to TSA and also serves as a resource for you to meet additional badging, physical security and personnel administrative needs.

Telos ID's DAC solution can be customized to your business processes and provide custom reporting and information exports. Multiple options and additional screening services are also available to fit the specific needs of your organization.

We invite you to contact us to learn how Telos ID can simplify and streamline your organization's STA compliance. You'll enjoy performance, security and support from Telos ID – the leader in federal identity assurance solutions.

For more information call us at 1-800-505-5144 or visit our website at www.AviationChanneling.com

EASY TO USE

Quick and easy enrollment and fingerprint collection; optional portal lets applicants pre-enroll and enter basic information

SECURE

Built with the highest level of security, including compliance with TSA security requirements for Authority to Operate (ATO)

FEATURE-RICH

Incorporates additional features that add value and improve the process at the security office; for example, the option to allow on-line scheduling for fingerprint collection and enrollment

COMPLIANT

Meets TSA and FISMA regulations for collection, transmission, management, and exposure of information

FLEXIBLE

Enables access to only the services and functionality required for your specific needs; works with existing biographic and biometric data collection systems

INTEROPERABLE

Modular Web services-based approach allows increased interoperability with existing systems

CUSTOMIZABLE

Can be customized to your business processes and provide custom reporting and information exports

CUSTOMER SERVICE

Technical support available 24x7; account representatives directly accessible during normal business hours in all time zones

LOW COST

Telos ID is committed to providing a lower-cost alternative to current channeling option

TELOS ID – PROVEN IDENTITY AND CREDENTIALING SOLUTIONS TO MEET THE MOST STRINGENT SECURITY REQUIREMENTS

Telos ID is a leading provider of identity management services to the Department of Defense, the federal government’s National Security community, and commercial enterprises.

Telos ID has supported the Common Access Card – DoD’s premier smartcard-based identification system – for nearly fifteen years, with over 2,400 biometric collection sites around the world. Millions of secure credentials are issued for active and reserve military under this program each year.

An experienced system integrator, Telos ID draws on a forty-year track record working with customers to tailor mission-critical solutions while adhering to government security standards. And, our IDVetting system provides enrollment and biometric collection capabilities for FBI channeling operations.

Customer Service Helpdesk
